GUEST EXPERTS

Dr Gabriele Gasparini

16th & 17th FEBRUARY

Dr Gabriele Gasparini is an interventional cardiologist also engaged in Clinical Cardiology at the Department of Invasive Cardiology, First Aid and the 'Coronary Intensive Care Unit at Humanitas Research Hospital, Milan, Italy.

He is often involved in several Live Cases during CTO meetings. He has written the ABCCTO Handbook, focused on percutaneous treatment of chronic total occlusions. He is a contributor author of Manual of CTO Interventions, written by E. Brilakis. He is also lecturing and proctoring at several institutions in Italy.

Dr Alexandre Avran

27th & 28th APRIL

Dr Alexandre Avran is an Interventional Clinical Cardiologist at Pasteur Essey les Nancy, France.

He achieved a postdoctoral training in interventional cardiology at the Timone Hospital during 1998-2002 and in interventional cardiology and clinical research at the Marseille Heart Institute during 1997-1998. He is also a Course Director of the Multi-Level CTO course, and a CTO proctor in France and internationally.

Dr Manos Brilakis

5th & 6th OCTOBER

Dr Emmanouil S. Brilakis, is Director of the Center for Complex Coronary Interventions at the Minneapolis Heart Institute and Chairman of the Center for Coronary Artery Disease at the Minneapolis Heart Institute Foundation.

He leads a large clinical trial group investigating treatment of chronic total occlusions, prevention and treatment of saphenous vein graft disease, prevention and management of complications, intracoronary imaging, antiplatelet treatment optimization post coronary stenting, radiation safety in the catheterization laboratory, lipid lowering strategies, and implementation of novel technologies in healthcare.

COURSE PROGRAM

1st DAY

9:00hrs Welcome: Dr Ignacio Amat

Presentation of the guest expert

PRE participation survey

CASE 1: Operators: Guest expert + attendee

CASE 2: Operators: Dr Amat + attendee

14:00hrs Live cases from

Hospital del Mar, Barcelona (Dr Vaquerizo)

Hospital La Fe, Valencia (Dr Sanz)

CASE 3: Operators: Guest expert + attendee

CASE 4: Operators: Dr Amat + attendee

19:00hrs End of the first session

21:30hrs Official dinner

2nd DAY

9:00hrs Review of the first session's cases

How to prevent and treat complications: Guest expert

CASE 1: Operators: Guest expert + attendee

CASE 2: Operators: Dr Amat + attendee

POST participation survey

Course conclusions

Awarding of diplomas

15:30hrs Course closure
